

To the Ocean County Mayors' Association,

It was an incredible honor to be recognized last week as a recipient of the 2018 Ocean County Mayors' Association scholarship. My parents and I are extremely thankful to have been in attendance at such a lovely ceremony. As was touched upon in my own application for the scholarship as well as by the actual Mayors' Association members who spoke at the event, maintaining a passionate and competent understanding of government is of the utmost importance, specifically for my peers who will soon become leaders in our communities and beyond. I hope that I continue to encompass the values of the Mayors' Association, and I would like to make it known that I intend to use such a generous award wisely as I prepare to attend Stevens Institute of Technology in the fall.

With sincere Gratitude,
Joseph Roselli
