

NJTPA Complete Streets Demonstration Library

Materials & Project Types

THE LIBRARY INCLUDES a collection of delineator posts, barricades, traffic signs, paints, stencils, barriers, traffic cones, and other materials available for loan to communities who want to implement a temporary demonstration.

A wide variety of project types can be carried out using temporary materials. Projects can vary widely in size and duration, from a one-day parklet in a single parking stall to a multi-block bike lane lasting several months. Some common examples include:

- Bike lanes
- Parklets
- Crosswalks
- Pedestrian plazas and street closures
- Curb bulb-outs

How to Apply

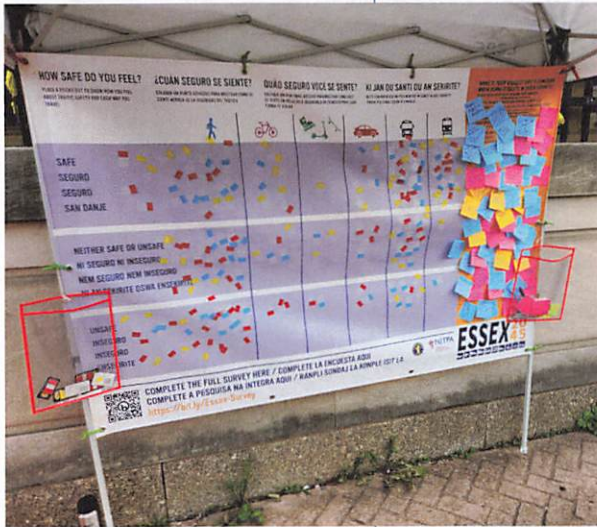

VISIT njtpa.org/demolibrary to review the NJTPA Complete Streets Demonstration Library Program Guide and complete a Request Form. Once forms are submitted and requests are accepted, applicants will be asked to sign the Complete Streets Demonstration Library Agreement.

Demonstration projects may be coordinated with and supported by partners such as a community organization, transportation management association, other government entity, or a planning/engineering consultant. Please note, this program provides materials

only. Recipients are responsible for preparing a design that complies with relevant design guidelines and standards that meet the approval of the municipality or private property owner with jurisdiction over the project location. NJTPA staff may be available to provide design advice, upon request. For additional information, visit njtpa.org/demolibrary.

NJTPA Complete Streets Demonstration Library

DEMONSTRATION PROJECTS ALLOW communities to test out potential Complete Streets improvements—like bicycle lanes, new crosswalks, or pedestrian plazas—to gather public feedback, and evaluate the potential improvements before making more costly permanent improvements.

Since these temporary demonstrations take place within the street, they require demarcation with paint, signage, movable bollards, movable curbs, and other traffic control devices. They may also include the use of street furniture like benches and planters.

The North Jersey Transportation Planning Authority (NJTPA), in partnership with Hudson Transportation Management Association, has created a Complete Streets Demonstration Library to support these projects. The library is open to New Jersey municipalities and counties.
